

AERIAL TOOL BIN®

"Take your Tools
to a NEW HEIGHT"

Organize for
safety
on...

Aerial Access Equipment.

The Aerial Tool Bin® will keep your tools and parts off the floor and at your fingertips ... plenty of room to work safely and efficiently.

- Made of reinforced, non-conductive, UV protected polypropylene orange plastic.
- Light, durable ... and nearly as strong as steel.
- Attaches to square or rounded 90 degree corners ... secured to the railings with two locking bolts.
- Triangular shaped to provide maximum working area and freedom from clutter.
- Three compartments with removable partition walls.
- The movable parts tray is magnetic and attaches to the metal strips on top of the bin. (included for a limited time while supplies last)
- Your tool belt is safely secured to the front of the bin.

AERIAL TOOL BIN®

U.S. Patent No. D675.824
