LADDER TOOL BIN®
U.S. Patent No. D838387

The Amazing Ladder Tool Bin®

LTB-1317

Purchase ladder
and tools separately.

Hold Tools and Other
Large Objects Securely
in the two Tool-Chambers,
each 4" x 8" x 8" deep.

Back View

The **Built-in Handle**
makes transport easy.

Front
View

Safely Secure the
Tool Bin to the Ladder
with the provided
9" safety bolt and
locking nylon wing-nut.

Flat Parts-Tray,
1-1/2" Deep,
makes it easy
to quickly locate
and pick up
small items.

Install the
Tool Bin
Wrench-Free
with the hex
head retainer
and 3-hole
option.

Paint Can Holder
should accept
most 1-gallon
paint cans; snug
enough to avoid
accidental spills!

Durable!

Made of reinforced, high
density, non-conductive,
UV protected, safety
orange polypropylene.
Light, durable and nearly
as strong as steel.

Convenient Storage!

The Ladder Tool Bin
can remain attached to
a folding ladder.
(Follow the warning
label.)

Optimal Balance!

The Ladder Tool Bin
attaches to the ladder
at it's center of gravity
for safe and equal
weight distribution.

- Orientation of Ladder Tool Bin is based on verbiage legibility and the handle opening facing the back of the step ladder.
- Do not expose the Ladder Tool Bin to temperatures exceeding 210° F.

LADDER TOOL BIN®

Thank you for trusting your hard work to the Tool Bin Man and the Ladder Tool Bin!
