Aerial Access Equipment

"Take your Tools
to a NEW HEIGHT"

Purchase tools and accessories separately.

The Aerial Tool Bin® will keep your tools and parts off the floor and at your fingertips. Plenty of room to work safely and efficiently.

- Made of reinforced, high density, non-conductive, UV protected, safety orange polypropylene.

- Light, durable and nearly as strong as steel.

- Attaches to square or rounded 90 degree corners. Secures to the railings with two locking bolts.

- Triangular shaped to provide maximum working area and freedom from clutter.

- Three compartments with removable partition walls.

- Attach a magnetic parts tray to the metal bars (we're including one for a limited time while supplies last)

- Safely fasten your tool belt to the front of the bin, for greater range of motion.

Part #: ATB-1312

AERIAL TOOL BIN®

U.S. Patent No. D675.824
